[WinXP KB917021 WPA2 Patch.rar](#)

The screenshot shows the 'foobar2000 v0.9.5 - Preferences' dialog box. The 'Components' section is selected in the left-hand tree view. The main area displays a table of found components with columns for Name, Version, and Module. A 'Copy' button is located at the top right of the table area. Below the table, there is a note: 'Note that the above list contains only components that report their name / version info.' At the bottom of the dialog, there are buttons for 'Reset All', 'Reset Page', 'Help', 'Save All', and 'Close'.

| Name                   | Version | Module          |
|------------------------|---------|-----------------|
| Album List             | 4.1     | foo_albumlist   |
| CD Audio Decoder       | 2.1.2   | foo_cdda        |
| Converter              | 1.0.2   | foo_converter   |
| Default User Interface | 0.9.5   | foo_ui_std      |
| File Operations        | 2.0     | foo_fileops     |
| foobar2000 core        | 0.9.5   | Core            |
| freedb Tagger          | 0.5.2.1 | foo_freedb2     |
| Masstagger             | 1.6     | foo_masstag     |
| RAR reader             | 1.1     | foo_unpack      |
| ReplayGain Scanner     | 2.0.2   | foo_rgscan      |
| Standard DSP Array     | 1.0     | foo_dsp_std     |
